

S.11.01 — Assets held as collateral

General comments:

This section relates to the annual submission of information for groups.

This template shall be reported annually when the ratio of the value of assets held as collateral to total balance sheet exceeds 10%.

The pool of assets that secure the investment (e.g. the pool of asset that are a collateral for covered bonds) shall not be reported in this template. The collateral covering reinsurance receivables shall be reported in S.11.01 template.

This template contains an item-by-item list of off-balance sheet assets held as collateral for covering balance sheet at the end of the reporting period. Collaterals are considered 'held' when the undertakings included in the scope described below or one of undertakings that are part of the group has the 'right of direct access to the collateral', so the collateral has been committed to the entity and it is individually identifiable.

It consists of detailed information from the perspective of the assets held as collateral and not from the perspective of the collateral arrangement.

If there is a pool of collaterals or a collateral arrangement comprising multiple assets, as many rows as the assets in the pool or arrangement shall be reported.

This template comprises two tables: Information on positions held and Information on assets.

On the table Information on positions held, each asset held as collateral shall be reported separately in as many rows as needed in order to properly fill in all variables requested in that table. If for the same asset two values can be attributed to one variable, then this asset needs to be reported in more than one line. Real estate held as collateral of the mortgages related to individuals shall be reported in one single line.

On the table Information on assets, each asset held as collateral shall be reported separately, with one row for each asset, filling in all variables requested in that table.

All items except items 'Type of asset for which the collateral is held' (C0140), 'Name of the counterparty pledging the collateral' (C0060) and 'Name of the group of the counterparty pledging the collateral' (C0070) relate to information on the assets held as collateral. Item C0140 relates to the asset on the balance sheet for which the collateral is held while items C0060 and C0070 relate to the counterparty pledging the collateral.

The asset categories referred to in this template are the ones defined in Annex IV — Assets Categories of this Regulation and references to CIC codes refer to Annex VI — CIC table of this Regulation.

Template S.11.01 includes the off-balance sheet assets held as collateral for covering balance sheet assets held directly by the undertaking and these amounts shall in fact be also reported in S.03.01 in C0020/R0100 to R0130.

The template is applicable for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2.

Where method 1 is used exclusively, the reporting shall reflect the consolidated position of the assets held as collateral within the scope of group supervision net of intra-group transactions. The reporting shall be made as follows:

- Item 'Legal name of the undertaking — C0010' and 'Identification code of the undertaking — C0020' shall not be reported;

- The assets held directly (i.e. not on a look-through basis) as collateral by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies shall be reported item by item;
- The assets held directly (i.e. not on a look-through basis) as collateral by undertakings consolidated in accordance with Article 335, paragraph 1, (a), (b) and (c) of Delegated Regulation (EU) 2015/35 shall be reported item by item;
- The assets held as collateral by other related undertakings shall not be included.

Where method 2 is used exclusively, the reporting shall include the detailed list of the assets held as collateral by the participating undertakings, the insurance holding companies and subsidiaries, regardless of the proportional share used. The reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall be reported;
- The assets held directly (i.e. not on a look-through basis) as collateral by participating insurance and reinsurance undertakings or insurance holding companies or mixed-financial holding companies under method 2 shall be reported item by item;

- The assets held as collateral by other related undertakings shall not be included.

Where a combination of methods 1 and 2 is used, one part of the reporting shall reflect the consolidated position of the assets held as collateral within the scope of group supervision, net of intra-group transactions, which must be reported and the other part of the reporting shall include the detailed list of the assets held as collateral by the participating undertakings, the insurance holding companies or mixed-financial holding companies and subsidiaries, regardless of the proportional share used.

The first part of the reporting shall be made as follows:

- Item ‘Legal name of the undertaking — C0010’ and ‘Identification code of the undertaking — C0020’ shall not be reported;

- The assets held as collateral by other related undertakings shall not be included.

The second part of the reporting shall be made as follows:

- The assets held as collateral by other related undertakings under method 2 shall not be included.
